ANTITRUST CHECKLIST FOR AMERICAN CHEMISTRY COUNCIL® MEETINGS

CHEMTREC, LLC is a single member limited liability company wholly owned by the American Chemistry Council, Inc. This antitrust checklist, a part of ACC's Antitrust Compliance Guide, is for use by ACC staff and member company representatives in the conduct of ACC-sponsored meetings. Prohibited discussion topics apply equally to social gatherings incidental to ACC-sponsored meetings. The checklist is not exhaustive and does not address antitrust issues relating to activities other than ACC meetings. Participants in ACC meetings also should be thoroughly familiar with the Antitrust Compliance Guide.

DO

Do ensure strict performance in areas of:

OVERSIGHT/SUPERVISION:

- Have an ACC staff representative at each ACC-sponsored meeting;
- Consult with ACC counsel on all antitrust questions relating to ACC-sponsored meetings;
- Limit meeting discussions to agenda topics (unless additional topics have been approved by the ACC staff representative); and
- Provide each member company representative and ACC employee attending an ACC-sponsored meeting with a copy of this checklist, and have a copy available for reference at all ACC-sponsored meetings.

RECORDKEEPING:

- Have an agenda and minutes which accurately reflect the matters which occur; and
- Provide agendas and minutes to ACC legal counsel for review and approval in advance of distribution.

VIGILANCE:

- Protest against or stop any discussion or meeting activities which appear to violate this checklist. Member company representatives should disassociate themselves from any such discussion or activities and leave any meeting in which they continue.

DON'T

Don't, in fact or appearance, discuss or exchange information on:

PRICES, INCLUDING:

- Individual company prices, price changes, price differentials, markups, discounts, allowance, credit terms, etc.;
- Individual company data on costs, production, capacity, inventories, sales, etc.; and
- Industry pricing policies, price levels, price changes, differentials, etc.

PRODUCTION, INCLUDING:

- Plans of individual companies concerning the design, production, distribution or marketing of particular products, including proposed territories or customers; and
- Changes in industry production, capacity or inventories.

TRANSPORTATION RATES:

- Rates or rate policies for individual shipments, including basing point systems, zone prices, freight equalization, etc.

MARKET PROCEDURES, INCLUDING:

- Company bids on contracts for particular products; company procedures for responding to bid invitations; and
- Matters relating to actual or potential individual suppliers or customers that might have the effect of excluding them from any market or influencing the business conduct of firms toward them.

Welcome to the 2022 CHEMTREC® International Hazmat Summit

Louisiana is an important geography for the chemical industry as home to many manufacturing companies and is our home for this Summit. We selected New Orleans for its unbeatable backdrop and rich culture. I hope while you are here you have time to enjoy some of the many unique experiences this city has to offer.

Our presenters have worked hard to share with you key topics of today and trends for tomorrow. We look forward to learning with you and discussing how we can shape the future of the dangerous goods industry.

As CHEMTREC celebrates its 50th Anniversary, we look back on our successes – and we look forward to our continued evolution. Since joining CHEMTREC on the eve of our 50th, I have had the pleasure of meeting many clients, and I look forward to meeting more here at the Summit.

This event was originally scheduled to take place last year but after careful consideration, given the ongoing pandemic, we postponed to now. Rescheduling allowed us to provide an in-person experience that our attendees, partners, and employees expect and deserve in a safer environment. We appreciate your patience and adaptability as we reworked the schedule.

On behalf of the entire CHEMTREC team, I want to thank each of you for your participation in this event.

Best,

Bruce Samuelsen
